

Project Information Sheet

Garden Ave, Moss St, Villard St and Walnut St Pavement Preservation

Project Overview:

- Work will occur on:
 - Garden Ave from Moss St to Walnut St
 - Moss St from Franklin Blvd to Garden Ave
 - Walnut St from Franklin Blvd to Garden Ave
 - Villard St from Franklin Blvd to Garden Ave
- These streets have deteriorated pavement due to age and heavy traffic loading and need to be repaved.
- Work will also include reconstructing sidewalk access ramps throughout the project in order to comply with the Americans with Disabilities Act.
- This project is primarily intended to repair the street pavement, but the full scope of the work is not yet determined and additional elements may be added as the site is further reviewed.

Construction Schedule:

- This project is scheduled for construction in the summer of 2020.
- Prior to the start of street construction, the City's arborists may be on-site trimming trees to prevent overhead limbs from being damaged by construction equipment.
- Also prior to construction, utility companies (water, electricity, gas) may be on-site adjusting their facilities in order to avoid conflicts with the work and prevent damage to their facilities.

Traffic Impacts:

- Drivers should expect lane closures and lane shifts during construction.
- Pedestrians should expect sidewalk detours during the sidewalk ramp work at the intersections.
- Bicyclists should expect to merge with motor vehicle traffic depending on available lane widths during construction.
- With any construction, drivers should expect equipment and workers in the roadway leading to congestion and delays during the work.

Project Funding:

- The major source of funding is the 2017 Street Preservation Bond.

For More Information:

- Project Manager: Rachael Love, phone 541-682-5477, RLove@eugene-or.gov
