

Project Information Sheet

2020 Safe Routes to School Grant: Various Speed Monitoring and Crosswalk Enhancements

Project Overview:

- Work will occur on several locations, at or near:
 - Cesar Chavez Elementary (4J)
 - Holt Elementary (4J)
 - Village School (4J)
 - Prairie Mountain School (Bethel)
 - Meadowview School (Bethel)
 - Malabon School (Bethel)
- These locations have been identified as hazardous to children walking or bicycling to and from school.
- Work will include constructing speed zone flashers, speed radars, rapid flashing beacons, crosswalks, and pedestrian islands in various locations.
- Work will also include reconstructing sidewalk access ramps throughout the project in order to comply with the Americans with Disabilities Act.

Construction Schedule:

- This project is scheduled for construction in the spring/summer of 2020.
- Prior to the start of street construction, the City's arborists may be on-site trimming trees to prevent overhead limbs from being damaged by construction equipment.
- Also prior to construction, utility companies (water, electricity, gas) may be on-site adjusting their facilities in order to avoid conflicts with the work and prevent damage to their facilities.

Traffic Impacts:

- Drivers should expect lane closures and lane shifts during construction.
- Pedestrians should expect sidewalk detours during the sidewalk ramp work at the intersections.
- Bicyclists should expect to merge with motor vehicle traffic depending on available lane widths during construction.
- With any construction, drivers should expect equipment and workers in the roadway leading to congestion and delays during the work.

Project Funding:

- The major source of funding is a Safe Routes to School Grant.
