

Learn About

# Eugene Public Works

**Parks** staff design our parks and keep our play areas and hiking trails clean and safe for everyone to enjoy.

**Engineers** help to plan big projects like roads, sidewalks and bridges.

While the project is being built, the engineer checks to see that all of the work being done matches the plan.

**Administration** helps with all of the public works projects by:

sharing ideas with the community

hiring new workers

paying bills

and giving reports.

Public Works is planning a project!  
Which of these things do you think we should add to the new park?

My park would have a \_\_\_\_\_

pony ride

bench and lights

playhouse

fountain

The city has many roads, bridges, street lights and underground pipes.

**Maintenance** workers make sure that everything is in good repair.

Many people in public works wear special clothes that help them do their job safely. Write the names of these items.

Do you know what each item does to help workers be safe?

Eugene Public Works owns the land and buildings at the **Eugene Airport**. We take care of the runways and buildings so that airplanes and travelers have a great place to fly to and from.

Which of these things do not belong at the airport?

WAITING AREA

All of the dirty water from your home goes into pipes below the street where it flows to **wastewater** tanks. There it is cleaned very carefully before being put into the river.

these tanks are **BIG!**

to the river →

Thank you for learning about the people at Public Works! We all work together to make our city a great place to live, play and visit.
